## QR RECEIPT BOX

Receipt Box is a user friendly website and application. Simply go to our site or open our app and scan the QR code on your receipt. Instantly have your entire receipt and store information on your phone, and on the web. Organize all your receipts in one place. As a business simply install our app on your register and Receipt Box will automatically pull the customers receipt data from your printer and display a code that is printable. Businesses can also add their own promotional material to the QR Receipt creating engaging clickable content the user cant miss.
